Important news...

COLLECTIT WILL NOW COLLECT DEBTS FOR YOU

Many of you have told us that you have the occasional debt you don't want to take through the courts yourself.

As a result of this we have decided to expand collectIT to include a collection arm.

collectIT will collect debts for both our subscribers and non subscribers.

Traditionally debt collectors are vague about the costs incurred in collecting debts, often adding disbursements and completely baffling customers by telling them how complicated the process is.

collectIT tells you at the outset what its costs are with different options available.

You get to choose the cost option depending on the level of your debt - a flat fee or a percentage.

Subscribers to the collectIT system receive a 25% discount on collectIT's costs if we do it for you and the ability to do it yourself if you so choose.
